TENDER NOTICE

Sealed tenders are invited from the established agencies having experience in the field of manufacturing of honey processing plant for supply, commissioning and training of Honey Processing Plant of 100Kg per eight hour shift and having following specification. The agency may give appropriate suggestions for improvement based on its experience.

1. Honey Processing Plant with Moisture Reduction Unit of capacity (of 100kg per eight hour shift) having following equipment of appropriate size including any other accessories.

- (i) Preheat Tank: SS304 tank of appropriate Size.
- (ii) Pre Filter: S.S.304 with 60 Mesh Screen, + 80 Mesh S.S.304 on line Strain.
- (iii) Honey transfer pump
- (iv) Process coil/heat exchanger of S.S.304 Seamless pipe with MS Jacket cylinder.
- (v) Fine Filter: 10 micron P.P. cloth bag filter + 2 micron cellulose cartridge filter.
- (vi) Honey Cooler: Shell and tube type heat exchanger.
- (vii) Settling Tank: Two number tanks with level indicator of appropriate size.
- (viii) Vapor separator: S.S.304 cyclone type vessel.
- (ix) Vapor condenser: Shell and tube type heat exchanger.
- (x) Vacuum pump: Oil ring type-high vacuum pump with electric motor.

2. Packaging Machinery with following specifications

- (i) Semiautomatic two head volumetric liquid filling machine- range from 15ml to 500ml by changing syringes and all contact part of SS 316 and non-contact parts of SS 304.
- (ii) Semiautomatic ROPP/LUG capping sealing machine: Industrial model motorized.
- (iii) Semiautomatic Label Gumming & Pasting Machine with following features
 - a. Without changing any of the parts suitable for the bottles 100ml to 1000 ml.
 - b. For metal, glass, plastic and composite containers, works with cold glue.
 - c. For face and wrap- around labeling.

3. Appropriate maintenance accessories for six month operation.

4. Shrink Wrapping & Sealing Tunnel: For shrink wrapping honey bottles of various sizes, which is required to be easy to operate with sleek design.

5. Containers fabricated from 304 grade Stainless Steel. The required capacity of the containers are 25kg, 50 kg, 100 kg, and 200 kg of honey.

6. Containers of different size made from food grade PET/ other material.

7. Sparkler Filter with transfer pump: 8plat x 8inches.

8. The agency will be required to depute staff for commissioning and installation and training for fifteen days free of charge.

Specific Condition:

- (i) The company should have supplied and commissioned at least 5 units of Honey Processing Plant and other Machineries in each of the year 2008 & 2009. Adequate evidence of supply & commissioning be submitted with the proposal.

* The Project Management Unit (PMU) is Registered under Societies Registration Act, 1860 Vide Registration No. 5375 /07 (issued by Registrar of Societies, Govt. of Tripura) for implementing the TRIPURA FOREST ENVIRONMENTAL IMPROVEMENT AND POVERTY ALLEVIATION PROJECT (TFIPAP)
